

Military English

Vocabulary Builder: Parts of a Helicopter

TEACHER'S COPY

Overview:

This worksheet lists vocabulary for the parts of a helicopter.

In this vocabulary builder, you will practise:

- ✓ using vocabulary related to the parts of a helicopter.

1) Label the picture. Use the words in the box below.

cabin // cabin door // cockpit // landing gear // main rotor // tail rotor // rotor blade // tail boom

- 2) Now let's listen to the words practised in this worksheet. Listen and repeat.
- 3) Which parts of a helicopter can you also see in an aircraft? Discuss in groups, then write in the boxes below.

Parts that are on helicopters and aircraft.

cabin, cockpit, landing gear, cabin door

Parts that are only on helicopters.

rotor, rotor blade, tail boom, tail rotor

The CH-47 Chinook is a very different helicopter. It has two main rotors. It can carry about 36 personnel. It's one of the fastest and largest military helicopters in the world. The Australian Army has more than 10 Chinook helicopters.

- Watch this YouTube video and try to write down parts you didn't learn from this lesson. Type on YouTube [Parts of a helicopter and their functions](#) or scan the QR Code → answers; main rotor assembly, stabilizer, tail wheel, engine, transmission, passenger seats (cabin)
- This Vocabulary Builder links with → Vocabulary Builder – Military vehicles; Vocabulary Builder – Parts of an Aircraft.

Exercise 2 Vocabulary Recording Transcript.

Exercise 6: Now let's listen to the words practised in this worksheet. Listen and repeat:

cabin

cabin door

cockpit

landing gear

main rotor

tail rotor

rotor blade

tail boom
